MEEGADA HARSHAVARDHANA MURTHY

Motivated and detail-oriented Cloud Computing Engineer and Cloud Software Developer with a strong foundation in cloud architecture, DevOps, and scalable software development. Seeking to leverage expertise in AWS, Azure, and cloud-native technologies to design, deploy, and optimize innovative cloud-based solutions. Eager to contribute to forward-thinking teams where I can enhance cloud infrastructure, automate workflows, and drive digital transformation.

Work Experience

Cloud Computing Trainee – Microsoft Azure & Amazon AWS

Aditya Degree College (Project-Based Learning / Self-Learning)
Jan 2024 – Apr 2024
- Practiced deploying and managing cloud services on Azure and AWS.
- Worked with virtual machines, storage, and basic web app deployment.
- Gained hands-on experience in cloud networking and resource management.
- Utilized Python for automation and scripting tasks.
- Applied Web Development skills to deploy sample applications on the cloud.
